*BIK value is based on WLTP CO₂'s and applicable from 19/12/2024.

The Recommended 'On The Road' price includes delivery charge to Retailer and number plates, one year's Road Fund Licence at the 1st year rate (£0 – £2,745 depending on the CO₂ output of the vehicle), and the new vehicle registration fee (£55). VAT is calculated at 20.0%. CUPRA may change RRP's at any time (this includes where there are government changes in regulation and/or legislation). There may be a delay to any RRP displaying correctly on our materials. Always obtain prices from your chosen CUPRA Retailer. Figures shown are for comparability purposes; only compare fuel consumption and CO₂ figures with other vehicles tested to the same technical procedures. These figures may not reflect real life driving results, which will depend upon a number of factors including the accessories fitted (post-registration), variations in weather, driving styles and vehicle load. Data correct at 19/12/2024. Figures quoted are for a range of configurations and are subject to change due to ongoing approvals/changes.

CONNECTED BEYOND THE PHYSICAL

FORGOT WHERE YOU'VE PARKED?

Simply open the MyCUPRA app and you will be able to easily locate your vehicle in cities or large parking areas.

The GPS coordinates will give you the exact address and you are then able to navigate to it through the easy to use map.

IS MY CAR SECURE?

For those moments when you're unsure if you've locked your car.

Through the MyCUPRA app, authorised users can see and control the lock status of the doors and boot.

IS MY SOFTWARE UP TO DATE?

Just like your mobile phone, your CUPRA also requires regular software updates.

You will be notified of any Over-the-Air updates (OTA) when they become available, these updates ensure that your CUPRA's software remains up to date and install new features without the need to visit a workshop.

WHEN IS MY SERVICE DUE?

You have enough things in your head to have to remember your next car service.

Activate automatic service scheduling and your chosen authorised service partner will contact you as soon as your vehicle detects the need of a service (inspection or relevant warning light).

TAKE YOUR CONNECTIVITY TO THE MAX

Just download the MyCUPRA App, create an account with your personal data and introduce the chassis number of your car located on the left side of the windscreen. In only a few minutes, you will have your CUPRA in the palm of your hand.

VEHICLE EXCISE DUTY

All new vehicles are subject to a form of Vehicle Excise Duty (VED) based on the type of fuel the vehicle uses and its carbon dioxide (CO₂) emission level, measured in grams per kilometre (g/km). The table below illustrates the duty you will pay based on the DVLA bandings.

The standard rate for Petrol and Diesel is £190 and £180 for Alternative Fuel Vehicles. Please be aware vehicles priced in excess of £40,000 (when combining the MDP (Manufacturer's Direct Price) (incl. VAT) and any additional options you select will incur an additional £410 a year in vehicle tax for Petrol and Diesel cars and £410 for Alternative Fuel Cars.

3. Official fuel consumption according to EU Directive 99/94. The consumption calculation according to 1999/100/EC is based on the actual unladen weight of the vehicle. Additional specifications can lead to a higher weight class and hence to consumption figures of this higher weight class. The driving style, road traffic conditions, environmental influences and vehicle condition can in practice lead to consumption figures which may differ from those calculated within this standard. Figures quoted are for a range of configurations and are subject to change due to ongoing approvals/changes.

YOUR TYRE LABEL

They may not be the first part of your CUPRA you notice, but your tyres play a vital role in keeping you on the road. Your EU tyre label tells you everything you need to know. Due to the variation of tyres that may be fitted during production, the configurator will show multiple tyre labels. It is not possible to select a specific tyre when ordering a vehicle.

You'll see more in-depth information on your tyres while configuring your car. Click [here](#) to start building your CUPRA now.

ENERGY EFFICIENCY

This is a measure of 'rolling resistance' – in other words, the amount of energy lost through motion. The lower the rolling resistance, the lower your energy consumption, with tyres rated as class A being the most efficient.

WET GRIP

Rigorous testing ensures your tyres give great handling and performance in all conditions. Wet grip specifically measures how well you can brake in wet conditions, with grade A giving the shortest stopping distance.

EXTERNAL NOISE

Tyres are carefully measured so you know exactly how much noise they'll make while driving. If decibels don't mean a lot to you, don't worry. Each tyre also falls into a noise class-A being the quietest and C the loudest.

CUPRA is committed to a policy of continuous product development and reserves the right to make changes to specifications, colours and prices without notice. The information in this brochure can therefore be given as guidance only. While CUPRA makes every effort to ensure that specifications are accurate at the time of publication, you should always check with your authorised CUPRA Retailer for the latest information. Due to limitations of the printing process, the colours reproduced in this brochure may vary slightly from the actual paint colour and material. This vehicle and all its parts, as well as the original spares, were designed according to the Legal Regulations governing the prevention and minimisation of Environmental Impact, through the use of recycled/ recyclable materials, with measures taken to achieve suitable recycling for the conservation and improvement of environmental quality.
